

Bratislava Mayor's Business Climate Challenge

Klimatická výzva primátora Bratislavy

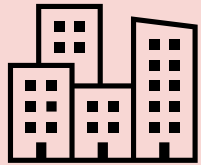

What is Bratislava Mayor's Climate Challenge?

- Programme for voluntary cooperation of the city and businesses to meet the city climate targets
- Inaugural edition officially launched in January 2025 by the Mayor Matus Vallo
- Built on the best practices from international models

Main goals of the challenge

Reduce emissions from
existing buildings in
Bratislava

Recognize responsible
companies and highlight
their leadership to
employees and
customers

Build long-term
partnerships between
the city and
businesses

**Showcase practical
solutions**

Target groups 2025

Retailers, especially grocery sellers

Owners and managers of large commercial and office spaces

Energy

Goal: **increased energy effectiveness and development of renewable sources of energy:**

- Reduce energy consumption by at least 10% and/or
- Increase production from renewable sources to at least 5%

Sustainability

In case companies choose only one of the two energy goals, the participants can select one of these sustainability-development areas:

- Parking lots,
- Greenery,
- Waste,
- Mobility/logistics

Climate Challenge 2025

Participating companies: 10

Total buildings involved: 12

Floor area: 243,000 m²

Total energy consumption: +34 GWh

Planned savings: +3 GWh

Planned renewable energy capacity: +3,100 kW

Support and assistance for participants

- **Communication activities on the City channels** focused on the experiences and results achieved
- **Closing award ceremony with the Mayor** for those who achieved the goals of the Climate Challenge
- **4 workshops** tailored to the needs of the participants
- **Consultations with the chief energy manager of Bratislava** or external energy specialists
- **Consultations with the technical experts of Bratislava** (e.g. experts on greenery and tree planting, circular economy or waste management)
- **Anonymised benchmarking** of the energy performance compared to other participants
